

HONEY KUMARI

Bengaluru, Karnataka | +91-7857818410 | kumarihoney170.08@gmail.com | github.com/kumarihoney2004

PROFESSIONAL SUMMARY

BCA graduate and Full Stack Developer with hands-on experience building web applications and RESTful APIs using Node.js, React.js, JavaScript (ES6+), and SQL databases (PostgreSQL, MySQL). Experienced in integrating frontend interfaces with backend APIs, debugging, and testing, with a strong foundation in OOP and data structures. Currently learning React Native and Socket.IO to build real-time web and mobile experiences. Eager to contribute to scalable frontend, mobile, and backend features within agile, cross-functional engineering teams.

EDUCATION

Bachelor of Computer Applications (BCA) <i>Netaji Subhas University, Jamshedpur</i>	2023 – 2026
Senior Secondary – 12th Grade (CBSE) <i>DBMS Kadma High School, Jamshedpur</i>	2021 – 2023
Secondary – 10th Grade (CBSE) <i>DBMS Kadma High School, Jamshedpur</i>	2020 – 2021

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C++, C
Frontend: React.js, React Native (learning), JavaScript (ES6+), HTML5, CSS3, Responsive Web Design
Backend: Node.js, Socket.IO (learning), RESTful API Design & Integration, MVC Architecture
Database & Storage: PostgreSQL, MySQL
Frameworks & Tools: Spring Framework (Spring Boot – learning), Git, GitHub, Postman, VS Code
Core Concepts: OOP, Data Structures, Debugging & API Testing, Agile Development

EXPERIENCE

Web Development Intern Tata Steel Ltd.	1 Month Jamshedpur
- Built an internal Resume Builder using ASP.NET and HTML/CSS, enabling staff to generate structured, downloadable resumes via a dynamic 5-section web form. - Shipped a production-ready tool within a 1-month timeline, adopted by HR staff for ongoing documentation.	
Server-Side Development Intern Stack Infotech Pvt. Ltd.	3 Months Jamshedpur
- Integrated RESTful APIs to fetch and display dynamic data on web interfaces, improving data accessibility for end users. - Tested and debugged API integrations using Postman and browser developer tools to ensure reliable data flow between frontend and backend. - Collaborated with senior developers on real-world tasks, gaining hands-on experience in professional software workflows and Git version control.	

PROJECTS

E-Commerce Website

- Built a fully functional full-stack e-commerce web application using HTML, CSS, JavaScript, and MySQL.
- Implemented RESTful API calls to handle product listing, user authentication, and order management workflows.
- Used Fetch API to connect the frontend with backend endpoints, enabling dynamic content loading without page refreshes.
- Applied clean MVC-style project structure, improving code maintainability and scalability.

Karyamitra – Service Provider Platform (Backend Update)

- Worked on a backend update for Karyamitra, a service-provider platform connecting users with local service professionals.
- Designed and implemented RESTful APIs to support core platform features and improve backend data handling.
- Collaborated with the existing codebase to integrate new endpoints while maintaining consistency with established architecture.
